\* *Dragon Dictate for Mac* is designed specifically for the Mac; *Dragon NaturallySpeaking* products (Home / Premium / Professional / Legal) run only on the Windows PC platform. The *Dragon Dictate for Mac* user interface, as well as the implementation of specific features and functionality, varies slightly from the *Dragon NaturallySpeaking* products.

\*\*\* **Full Text Control** allows you to use voice to perform direct dictation, selection, correction, and cursor movement within text. **Menu Tracking** provides the ability to use voice to "click" an application's menus, buttons, dialog boxes, etc. **Natural Language Commands** let you state your intent within a specific application instead of following the menu-selection and mouse steps of the Windows interface. **Safari 5.1** (dictation only)
